

Alpenwald Village, Inc.

LOGGING APPLICATION

The only way the board of directors would consent to selectively cutting on property within Alpenwald Village would be to improve the health of the forest and improve the appeal for future potential sale. This may only be done one time per lot and the owner would be responsible to ensure the removal or chipping of all slash piles and no visible stumps shall remain. Consideration for potential damage caused by the logger to roads, disturbance to neighboring property owners or no compliance with the terms of the project will be deliberated by the board of directors as part of the approval process for the project.

Applicant Name: _____

Address: _____

Lot (s) number(s) and Section: _____
